## ACKNOWLEDGEMENT

The Dudley Grant Memorial Trust, as the lead coordinating agency for the national Early Childhood Curriculum Project, wishes to acknowledge with great appreciation the contribution and hard work of all the participating individuals, groups and agencies.

The task involved the revision of the existing curriculum guide for the four- and five-year-old age groups and the development of a guide for the birth to three-year-old age cohorts. Development of the supporting documents such as the Scope and Sequence and the Conceptual Framework for the age-range birth to five years was also a vital part of the process.

Many early childhood professionals have contributed to the development of these documents. While it would be difficult to mention everyone by name, we must acknowledge some key individuals and groups who made significant inputs into the production of the documents.

We acknowledge the leadership, coordination and curriculum writing contributions of Dr. Rose Davies, Senior Lecturer at the Institute of Education, University of the West Indies and chief consultant for the Project.

We thank especially the following outstanding contributors:

- › Mrs. Joyce Jarrett for her vision and enormous generosity in sharing her time and expertise in the revision and development of the Curriculum Guide
- › Mrs. Eugena Robinson for her significant contribution in the development of the Curriculum Guide
- › Dr Donna Chin Fatt for her special contribution in reviewing the Scope and Sequence document and aspects of the Curriculum Guide
- › Mrs. Lorna Thompson for her commitment, leadership and expertise in the areas of curriculum development and numeracy
- › Mrs. Jennifer Silvera for her commitment, contribution and expertise in the area of literacy
- › The Education Officers and administrators of the Ministry of Education, in particular partners in the Early Childhood Resource Centres, and in the Early Childhood, Core Curriculum and Special Education Units
- › The parents, early childhood practitioners and children who provided pictures and gave valuable feedback during the curriculum development process
- › The Early Childhood Commission; HEART/NCT-VET; Social Conflict and Legal Reform Project; UNICEF; McCam Child Development Centre; Shortwood, Sam Sharpe and St. Joseph's Teachers' Colleges; Ministry of Health; PALS and the Barita Foundation.

- › Members of the George Brown College, Toronto, Canada for their assistance in reviewing the documents
- › Members of the Review Teams for their guidance and time
- › Members of the Lead Group for their leadership in, and dedication and commitment to the process
- › Members of the Technical Monitoring Committee for their support and leadership.

## INTRODUCTION

The first written Jamaican pre-school curriculum for children four to six years old was completed in 1973 through the Project for Early Childhood Education (PECE), directed by Mr. D.R.B. Grant and funded by the Bernard van Leer Foundation. The “PECE Curriculum Manual”, as it was called, was a very detailed instructional guide comprising 24 volumes totaling 4,988 pages. It provided a step-by-step approach for presenting content from traditional subject areas. The detailed format was necessary as the majority of para-professional teachers in the basic schools then, were inexperienced and lacked in-depth knowledge of essential child development and education principles and practices. The manual served as a guide in the fortnightly workshops presented by a core of teacher trainers to develop the teaching skills of the para-professional teachers.

In 1979, based on the findings of a survey carried out by the Early Childhood Unit of the Ministry of Education, a curriculum review and revision process was initiated, and in 1983 the new “Readiness Curriculum for Four and Five Year Olds” was introduced into early childhood institutions. The revised curriculum format was much less detailed and prescriptive, allowing the increasingly better trained teachers greater flexibility in interpreting and implementing the curriculum. The new “Readiness” curriculum replaced the subject-based structure of the PECE Manual with an integrated curriculum approach, a model that places more emphasis on skills development across children’s developmental domains through integrated and developmentally appropriate activities organized around themes familiar to the children. Both the PECE and the Readiness Curriculum continued to be used in early childhood programmes up until the development of this present Jamaican Early Childhood Curriculum Guide for Children Birth to Five Years. This new curriculum is presented in two volumes. Part 1 is the curriculum for children from birth to three years old, and Part 2 is the curriculum for children four and five years old. The curriculum in its entirety represents the first national effort to provide an early childhood curriculum for children from birth to five years old.

## THE CURRICULUM FRAMEWORK

One important aim of early childhood curricula is to help children to achieve the broad developmental goals and outcomes considered desirable within their particular community. In this regard, representatives of 19 Caribbean countries met in Barbados in 2001 to identify desirable learning outcomes for young Caribbean children by the end of the early childhood period. The group identified the following six desirable learning outcomes or qualities for young Caribbean children:

***Wellness*** – a child who is healthy, strong and well adjusted. The child will be physically well developed with good motor coordination and will feel generally good about himself or herself.

***Communication*** – a child who is an effective communicator. The child will understand and use language appropriately

***Valuing Culture*** – a child who values his or her own culture and that of others. The child will appreciate, value and respect the many aspects of his or her own culture as well as that of others.

***Intellectual Empowerment*** – a child who is a critical thinker and an independent learner. The child will be aware of how to gather, process and use information to solve problems and also to understand what happens in the wider environment.

***Respect for Self, Others and the Environment*** – a child who respects self, others and the environment. The child will understand the difference between acceptable and unacceptable behaviours; will be able to express empathy for others and build positive, respectful relationships with others; the child shows concern for the environment.

***Resilience*** – a child who has coping skills. The child will show persistence with challenging tasks, take risks and use acceptable social skills to cope with difficulties.

Children are likely to achieve the above qualities or learning outcomes by the end of the preschool stage if their environment provides activities and experiences that support such development over time. The adults who are an important part of the environment, whether at home or

school, must be sensitive to the developing needs of the young children for whom they provide care and guidance. In the case of day care, children perhaps spend more of their waking hours within centres than at home and are usually cared for by more than one caregiver. Part 1, the curriculum for infants and toddlers, focuses on the development of the skills that children are capable of learning at that stage of their development. It represents a set of interactive activities and experiences based on child development knowledge, that is, what the child can do now and what the next step is (*see Curriculum Guide for Children – Birth to Three is Key*). Part 2, the curriculum for children four and five years old, is designed to encourage integrated, play-based learning, as children continue to explore and discover the world around them and develop skills in the various developmental domains. The curriculum is built on the principle that children learn best when content from various disciplines along with skills from the developmental domains are integrated in line with the children's holistic view and experience of the world (See Conceptual Framework Principle # 6).

### **The Thematic Integrated Curriculum**

The integrated curriculum places equal emphasis on advancing children's skills in all the domains of development, viz: personal, social-emotional skills and spirituality (affective domain), aesthetic or expressive skills (creative domain), intellectual and language skills (cognitive domain) and fine and gross motor skills (psychomotor domain). The domains of development are constantly interacting with and affecting each other. For example, a child who is unhappy and has low self-esteem (affective domain) is less likely to perform well academically (cognitive domain) than a child who is happy and satisfied with self. Similarly a child who is physically undernourished or sick (psychomotor domain) is less likely to cope academically (cognitive domain) than one who is well developed and healthy.

The curriculum for older toddlers (two to three years old) up to the five-year-olds is presented in thematic integrated units. Children are exposed to different themes of interest and relevance to their own life experiences on an ongoing basis. To facilitate and support children's learning and skill building, the environment must change to reflect each new theme in terms of the appropriateness of the learning materials and hands-on learning experiences provided. As children explore each theme, they are provided with opportunities to learn in a variety of ways and to develop skills in all the developmental domains. They can engage in mentally stimulating and challenging activities that increase their literacy, numeracy, critical thinking and general knowledge skills; practise social skills during interaction in small and large groups with their peers and adults; engage in aesthetic activities including drawing, painting, constructing, singing, dancing, dramatizing and reciting; engage in physical sports and games; refine and master gross and fine motor skills, experiment, explore and discover the properties of many things in their world.

Play is the core learning process of the integrated curriculum, and this is based on the belief that children must enjoy learning and should always be engaged in meaningful, fun experiences that target the acquisition of desired skills and learning outcomes as identified in the curriculum framework.

In summary, this integrated approach to curriculum is developmentally appropriate for use with young children as it

- helps children make the connections and linkages across traditional subject disciplines and thus subscribes to the holistic nature of knowledge about the world
- promotes children’s active involvement in planning and implementing curriculum activities
- makes allowance for a range of activities, skills and levels of performance as children engage in exploring various themes
- lends itself to many opportunities for children’s creative expressions, allowing for individual learning styles and multiple intelligences
- facilitates the flow of meaningful activities across blocks of time in the daily schedule. Scheduling that supports integrated learning is organized in large blocks of time rather than in the short periods used in the subject-based curriculum approach.

Children can pursue more meaningful learning when they are able to complete a task and are not forced to endure frequent transitions from one discrete lesson to another, such as leaving a science lesson unfinished to move on to a mathematics lesson.

## **SCHEDULING FOR THE INTEGRATED CURRICULUM**

The traditional subject-based approach to scheduling of learning activities is inappropriate for use with the integrated curriculum. In this curriculum approach, children must have the opportunity to learn in ways that are in harmony with how they think, view and experience the world. More appropriate is the “block of time” approach in which essential elements of the day that offer numerous “teachable moments” are provided for. These elements will include: arrival and greetings, free self-selected play, clean-up and transitions, devotion, circle time, mealtimes, guided learning activities (similarity to “windows”), outdoor play, rest periods, experience of the aesthetics and creative arts, books and story sharing.

- *Arrival* – this is an opportunity for practitioners to get to know children and their parents better as they receive and greet them warmly and initiate discussion.
- *Free play* – during this period the environment is adequately prepared with a wide range of activities that children can choose to

engage in, e.g. table-top games and puzzles, book area, blocks, Dress-up Corner, Shop Corner and so on.

- *Devotion* – this is traditionally done in Jamaican schools. At the early childhood level, this exercise should be fairly brief and the emphasis should be on character building and development of positive values and attitudes, e.g. caring, sharing, kindness, and honesty.
- *Circle time/group time* – this is the first opportunity of the day for children to meet as a group and offers potential for a wide range of learning activities. It is a good time to introduce new concepts to the whole group, concepts that may be followed up further in smaller group sessions.
- *Guided learning* – this period provides practitioners with the opportunity to focus on the learning needs of individuals and small groups of children. Children generally continue to engage in skill-building activities that reinforce concepts previously introduced, or to learn new ones. The strategy of “grouping” can be effectively applied here as the emphasis is on small group activity. For example, while the practitioner engages one small group in a particular teacher-initiated activity, e.g. literacy or numeracy skill-building, other small groups of children can work with self-correcting or self-directed activities requiring minimal oversight by the adult.
- *Transition periods* – there are several transition periods throughout the day as children shift from one type of activity to another. Children should be given adequate notice that an activity is about to change and then be encouraged through songs, jingles and poems to engage in cleaning up activities, using an element of fun.
- *Mealtimes* – children might have one or more snack periods depending on the length of the day, as well as a main meal. This period offers good opportunity to share important learning about health, nutrition and cleanliness, e.g. how to properly wash and dry hands before handling food. Children can also be guided in proper etiquette and how to be kind to each other. As far as possible, adults should sit and eat with the children and help them practise their social skills.
- *Outdoor play* – barring inclement weather or other individual circumstances, this is a “non-negotiable” daily activity period. Young children **must have** daily opportunities to exercise their muscles and release pent-up energy. It is inappropriate **practice to keep children confined** indoors all day as this promotes the development of unhealthy habits such as excessive TV watching, laziness and lack of interest in exercise.
- *Rest time* – all young children need quiet periods of rest throughout the course of a day. This period can be enhanced by playing soothing music that induces sleep.
- *Creative activities* – on a daily basis children should have the opportunity to experience the creative arts, e.g. drawing and painting, constructing, dancing, singing or storytelling.

## FORMAT OF THE THEMATIC INTEGRATED CURRICULUM

Themes are organized relative to the three terms of the academic school year. Generally, for the respective four- and five-year-old age groups, two themes are explored over each school term. The suggested duration of a theme is five weeks, based on the standard ten weeks per school term. However, some flexibility can be exercised depending on the nature of the theme being developed. In the curriculum guide for four- and five-year-olds, themes are frequently divided into two or more sub themes with suggested time frames for coverage. Again, practitioners must exercise good judgement and flexibility in determining whether the suggested time frames should be reduced or increased, based on the children’s engagement and level of interest in a particular theme. Themes and sub themes are planned to provide developmentally appropriate content related to the thematic focus. The selection of activities is guided by the scope and sequence outline for the age group and seeks to integrate the skill development and knowledge facts into hands-on experiences for children. The themes covered for the four- and five-year-olds include the following:

4-Year-Olds		5-Year-Olds	
Term 1:	Celebrating Me Celebrations	Term 1:	Our Country Jamaica - Our People Our Country Jamaica - Our People
Term 2:	Plants Transportation	Term 2:	Transportation Sports
Term 3:	People in Our Community People in Our Community	Term 3:	Jamaica Land We Love The Weather

The curriculum guide is formatted in a landscape orientation across two pages. This enables the user to see, at a glance, all the necessary information that should guide curriculum planning, process and practice. These include the **age cohort, school term, theme, sub theme and suggested duration** (of sub theme). On the left side of the double page, arranged in three columns are the sub headings: **Concepts and Content, Suggested Learning Activities, Vocabulary and Sight Words**. On the right side of the double page, also arranged in two columns, are the sub headings: **Practitioner Strategies** which includes *Preparing for Learning* and *Interacting with and Supporting Children*. The second column has subheadings: **Look, Listen, Note** and **Involving Parents**.

## Developmental Objectives

The appropriate developmental objectives for each age group, as outlined in the relevant Scope and Sequence Document, are presented as an introduction to the two themes to be covered in each school term. The objectives are intentionally not included within the double-page layout of the guide so as to avoid any attempt by users to align objectives with content, concepts, skills and activities on a page. The developmental objectives are outlined for an entire school term rather than on a monthly or weekly basis. This is because of how children develop naturally. Within any school term, each child will achieve different objectives at different points in time, through participating in activities different from those of his or her peers.

Although this curriculum attempts to offer a comprehensive developmental programme for children, it is by no means “all-inclusive”. Indeed, practitioners are encouraged to make additions and adjustments as he or she becomes more familiar with the themes, and consideration is given to factors such as variation in learning environments, availability of materials and resources, parent and community involvement, number of children in the group and so on. Practitioners are therefore encouraged to use this document as a **guide** in planning and **not** as the plan itself. Special emphasis is placed on the development of age appropriate numeracy and literacy concepts and skills as these areas continue to present challenges within the Jamaican education system. The emphasis is on helping young children to develop healthy and positive attitudes and dispositions toward learning in these particular areas. Hence, it is expected that daily programme schedules will allocate specific times for opening “windows” of opportunity for children to learn specific age appropriate literacy and numeracy concepts (see appendix for early literacy and numeracy learning standards).

## *Concepts and Content*

This section provides the theme-related content and concepts that can be appropriately introduced to the age group. Content focus for specified periods (one week, two weeks, three weeks or more) is determined by the nature of the sub themes and the children’s level of engagement with them. The information provided in the column is **not intended** to be “**taught from top to bottom and from page to page**”. Content information is provided only to ensure that accurate facts are presented to children by the practitioners, in learning about different topics. Practitioners will use the facts to develop their own unit and lesson plans. Once the content and related concepts have been introduced to children, practitioners should use every opportunity to repeat and reinforce this information as children learn best when they hear, see and engage new knowledge and skills over and over again. Practitioners are advised to use the curriculum guide as their primary source of information and guidance in planning integrated lesson units. However, they also have the freedom to add or reduce concepts and content as necessary for effectiveness.

### ***Suggested Learning Activities***

The activities suggested in this section are specially selected for their potential to expose children to experiences that will help them to learn new concepts and develop a wide range of skills, e.g. psychomotor, cognitive or social-emotional.

As previously stated, emphasis is placed on early literacy and numeracy activities for which a strong foundation is necessary, given the problems related to these areas in the wider society. In planning weekly activities, practitioners should aim to provide variety in the kinds of experiences children are exposed to. They must aim to provide balance in integrating skills from the intellectual/perceptual, aesthetic/creative, social-emotional and psychomotor areas into the carefully chosen activities included in each planned unit. Practitioners should also be creative and add new and appropriate interesting activities, songs, stories and so on, which might not be included in the curriculum guide.

### ***Vocabulary***

This section highlights the new or familiar vocabulary emerging from the exploration of themes and sub themes, that children should be encouraged to learn to use in conversation. Practitioners should make an effort to continue to reinforce the use of newly learned words in daily verbal interactions. Some practitioners might consider some words too “big” for children to understand and use appropriately. But children are very adept at learning the contextual use of words and should not be prevented from so doing on account of the imposed limitations on vocabulary use. **The vocabulary list is not intended for and should never be used as a spelling list.**

### ***Sight Words***

These are high frequency words which children will encounter. Recognition of these words will enhance the children’s reading fluency. It is recommended that practitioners reinforce these words using flash cards, word walls and memory games. Children can be encouraged to learn to spell the words in these lists.

## *Practitioner Strategies*

### *Preparing for Learning*

This section suggests specific tasks and precautions that practitioners can undertake in order to provide safe, stimulating and enriching learning environments and experiences for the children. This involves being resourceful in making and/or sourcing materials that are needed for a particular thematic unit, as well as seeking support from parents and community to enrich and infuse “life” into the curriculum.

### *Supporting Children*

This section relates mostly to the affective elements of the curriculum. The emphasis is on the ways practitioners can promote positive self concept and self esteem in children and help them to develop positive and pro-social attitudes and values. This requires that practitioners individualize interactions with each child, paying particular attention to children’s social-emotional and special needs. It is important to note that although suggested actions and principles in this column might appear in writing only once, they should **always** be reinforced and applied every day that practitioners interact with individual children.

### *Look, Listen, Note*

In this section, suggestions are provided as to what to observe and monitor in assessing children’s progress. The assessment suggestions are related to the concepts, content and skills emphasized in each unit plan. Practitioners are encouraged to use a variety of assessment procedures to monitor children’s progress, to include checklists, rating scales, observations and recording anecdotal comments.

### *Involving Parents*

This section provides suggestions for how practitioners might involve parents and families in supporting their children’s learning both at home and at school. Parents are also provided with simple and useful tips on how to deal with specific issues or promote development of specific skills in their children.

# 4-YEAR-OLDS

## Term 1

## Developmental Objectives

### WELLNESS

*If provided with the appropriate opportunities children will*

- › Use upper and lower limbs and whole body with increasing competence and skill in balance, direction, speed, use of space, throwing/catching and locomotor activity
- › Engage in imaginative and creative play indoors and outdoors; begin to participate in group games
- › Perform longer and more challenging movement sequences, e.g. dance, choreographed pieces
- › Establish hand preference
- › Demonstrate greater coordination and control in fine motor skills, e.g. hold pencil/crayon/paintbrush correctly, do lacing, use safety scissors, dress/undress dolls and stuffed toys
- › Begin to understand concept of right and left; though confusing at times
- › Copy and print letters, numerals and symbols that are meaningful to them; identify and print first name, then both names; begin to learn their phone number, address and other personal information
- › Display self-regulation in on-task behaviours, independence, self confidence, respond to praise
- › Develop sense of responsibility for own actions
- › Show interest in gender differences, e.g. boy or girl, caring for self, and making healthy choices
- › Demonstrate strong sense of belonging

### COMMUNICATION

*If provided with the appropriate opportunities children will*

- › Show enjoyment while being read to
- › Engage in turn-taking during discussions and in using materials; listen courteously and in a supportive manner
- › Tend to be expansive in exploring use of language; play/experiment with words and sounds; like to use new/strange/silly words
- › Speak in sentences increasing in complexity in structure; tend to be more talkative; want to explain everything; express thoughts intelligibly
- › Ask, understand and respond to simple “how,” “when” and “why” questions
- › Model the use of Standard Jamaican English (SJE) with guidance
- › Receive and deliver messages; listen to and complete at least 2 or 3 formal instructions accurately
- › Understand spatial concepts, e.g. in front of, behind, before, beside, far, near, above and below
- › Speak clearly and fluently
- › Use talk, objects and actions as symbols to express experiences and events
- › Enjoy participating in activities involving language games, playing with sounds, picture matching games, categorizing, “go-together” pictures and objects, puppetry, show and tell, sharing news

# 4-YEAR-OLDS

Term 1

## Developmental Objectives

### COMMUNICATION (cont'd)

- › Name the capital and common forms of letters
- › Print names correctly
- › Recognize and reproduce sequences and patterns among objects, pictures and symbols
- › Select reading material according to special interest; show positive disposition to handling books
- › Talk about a picture, describing actions and objects; sequence about 2 to 4 pictures to tell a story; interpret pictures and read predictable picture text
- › Locate, say and pronounce some sight words
- › Recognise and produce words that rhyme
- › Read and interpret environmental print
- › Sequence words to make a sentence; sequence words to make phrases
- › Join dots in sequence to form pictures, symbols, letters, numerals; trace letters and numerals
- › Write basic lines and curves; form symbols, letters, numerals
- › Create text by drawing and/or using emergent writing

### VALUING CULTURE

*If provided with the appropriate opportunities children will*

- › Show awareness of and appreciation for different music, song, dance, art and crafts, stories, food, language and clothes, e.g. Jamaican folk and reggae music
- › Continue to imitate behaviours related to religious and cultural practices such as saying prayers, singing songs, etc.
- › Enjoy participating in activities that involve role-playing, wearing masks and costumes
- › Sing the National Anthem
- › Recognize and name some of the national Heroes/Heroine
- › Name the Prime Minister
- › Learn to value and respect all Jamaicans of different race and culture

# 4-YEAR-OLDS

Term 1

## Developmental Objectives

### INTELLECTUAL EMPOWERMENT

*If provided with the appropriate opportunities children will*

- › Follow up to three instructions given at one time
- › Seek answers to “who,” “what,” “why,” “where” and “what if” questions
- › Develop basic skills in numeracy, literacy and oracy
- › Participate in activities to develop pre-numeracy skills in sorting and classifying, ordering and sequencing, and patterning
- › Explore aspects of capacity, volume, area, spatial relationships and weight through play activities involving liquids (e.g. water) and solids (e.g. sand)
- › Sort, identify, name simple geometric shapes, including circle, square, triangle, rectangle; copy shapes and combine more than two geometric forms in drawing and construction
- › Use non-standard units to measure lengths, e.g. hand span and paper clips; use mathematical language to express length, e.g. long and short
- › Use non-standard units to measure capacity, e.g. plastic containers and juice boxes; use mathematical language to express capacity, e.g. full and empty
- › Explore and talk about the passing of time during daily activities and routines; associate special days, events and celebrations with time-related concepts; begin to understand present, past, future
- › Use senses through interactive activities to investigate and learn about self, objects, others and the environment
- › Express interest and curiosity in own family and home and those of others
- › Talk about self, friends and family; recognize similarities and differences among each other; talk about and share own experiences, feelings and preferences
- › Follow classroom routines; begin to understand the purpose of classroom procedures; use materials in appropriate ways; continue to respect and care for classroom materials and environment
- › Enjoy participating in music and movement activities involving sounds, rhythms, music, songs, rhymes, jingles, actions and other creative gestures and expressions
- › Experiment with distinguishing and creating sounds and sound patterns by clapping, tapping, stomping, using percussion instruments, etc.
- › Begin to experiment with using different media and materials in various forms of expression
- › Begin to observe straight and curved lines in the environment
- › Practise holding and controlling scissors for cutting
- › Begin to make representational drawings of objects, people and scenes from the environment
- › Participate in expressive activities, such as singing, dancing and dramatic play about own and others’ experiences, and about a range of feelings such as joy, sorrow, disappointment, wonder, etc.
- › Begin to demonstrate socially acceptable ways of expressing gratitude to God, parents, teachers, friends and others
- › Talk about, sing songs and share in stories about spiritual leaders such as Jesus as a friend of children
- › Turn the pages of books

# 4-YEAR-OLDS

## Term 1

## Developmental Objectives

### RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT

*If provided with the appropriate opportunities children will*

- › Develop a sense of self-worth and confidence; take pride in own work and effort; feel good about self; feel that they can succeed and experience success
- › Demonstrate more independence and sense of responsibility
- › Express a strong need for love, attention and affirmation from parents, teachers and all practitioners
- › Initiate interactions; relate to others, including siblings, friends, group members and classmates – sharing, taking turns, helping, caring, assuming responsibility, etc.
- › Recognize and relate appropriately to others who are different from them in any way
- › Demonstrate an understanding of and practise social norms in appearance and expression, e.g. personal grooming, hygiene
- › Show respect for each other's privacy; show respect towards others and their property
- › Begin to display responsible behaviour and self-control at school, home and in the community
- › Participate in games and activities to develop self-awareness and individuality; begin to demonstrate a sense of trust and confidence in self, own efforts and others
- › Show respect for nature, living things and recycling

### RESILIENCE

*If provided with the appropriate opportunities children will*

- › Demonstrate a basic understanding of right and wrong; help to construct set of class rules
- › Try new things and take risks; talk about dangers of play and activities which could be hazardous
- › Express moods and emotions in socially acceptable ways
- › Demonstrate the ability to cope with frustration, anger, rejection, grief, etc. in socially acceptable ways
- › Repeat and be able to give personal information such as own home address, telephone number, parents' names, etc. in case of an emergency
- › Express negative and positive feelings verbally

# 4-YEAR-OLDS

Term 1

THEME: CELEBRATING ME

SUB THEME: I Am Special

Suggested Duration:  
1 Week

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> <li>› I am special; there is no one else like me</li> <li>› I am special to many people, e.g. my family, my friends, my teachers and others who love me</li> <li>› I can show people they are special to me with a special hello, hug, smile</li> <li>› My name is special. It was chosen for me. It tells who I am</li> </ul>	<p><i>Children will engage in a wide range of activities in which they can</i></p> <ul style="list-style-type: none"> <li>› identify their own name cards</li> <li>› listen to/share, talk about stories related to being special; sing songs along with percussion instruments, repeat rhymes, poems and prayers about being special and loved</li> <li>› bring in pictures of themselves with their families and talk about their families/family events; create a mural with the family pictures; make models of family members from playdough or clay</li> <li>› discuss how families are unique</li> <li>› tell their full name; count the number of names they have; count number of people in their immediate families</li> <li>› identify their first name and last name</li> <li>› take snapshots of different groups in the class, talk about each child being special to the group or class</li> <li>› role-play and practise ways of showing each other they are special/role-play introducing self to others; use SJE speech pattern, e.g. What is your name? My name is _____; I am _____</li> <li>› engage in play with dolls and give dolls their own special names</li> </ul>	<p><i>(Not to be used as a list for spelling)</i></p> <p>special name people family friend teacher love hello hug smile your is am I</p>

# 4-YEAR-OLDS

## Term 2

## Developmental Objectives

### WELLNESS

*If provided with the appropriate opportunities children will*

- › Demonstrate greater coordination, self-control, balance, speed and agility in carrying out movements of the upper and lower limbs and for locomotor activity; begin to jump rope, hop on alternating foot, turn somersault. Show increasing confidence and skill in using play equipment; kick, catch/throw with increasing sense of aim and direction
- › Follow instructions requiring quick reaction; judge well in physical placement, direction and timing
- › Continue to engage in imaginative and creative play indoors and outdoors
- › Demonstrate greater coordination and control in fine motor skills, e.g. fit puzzles of up to 12 pieces, use scissors to cut along straight and curved lines
- › Continue a sequence of lines, symbols, shapes and patterns
- › Use spatial relationships correctly, e.g. before, behind, beside, over, around, under, left, right
- › Exercise increased control and safety when using materials, toys, tools; use a spoon, fork, dinner knife
- › Continue to print letters, numerals, symbols with increased sense of spacing, formation, left to right orientation
- › Like to succeed and try new things, activities, adventures; continue to show curiosity and interest in exploring different tastes, textures and states; comment on preferences
- › Demonstrate growing sense of trust and confidence, pride and satisfaction in independent activity and products
- › Exercise greater self-control but still need adult help; demonstrate competence in self-help skills and chores
- › Follow instructions and do as others in the group; show interest in fair play but are apprehensive about competitive activities
- › Show increasing ability to adapt to different situations
- › Resolve conflict with assistance, if needed
- › Accept rules and limits
- › Perform specific movements to the beat of music; enjoy music and movement activities, rhythm and songs
- › Participate in activities to develop body balance and control
- › Improve skill in holding and controlling scissors for cutting

### COMMUNICATION

*If provided with the appropriate opportunities children will*

- › Enjoy the use of “big” words and “trying out” language with nonsense and silly phrases; make longer sentences
- › Enjoy telling jokes, initiating and participating in conversations; speak audibly to a varied audience
- › Listen attentively, respond to and evaluate what was heard; express positive and negative feelings verbally
- › Describe events and situations, share personal and meaningful experiences and relate events in stories to own personal experiences

# 4-YEAR-OLDS

Term 2

## Developmental Objectives

### COMMUNICATION ( cont'd )

- › Apply thought and language to problem-solve and categorize
- › Speak Standard Jamaican English (SJE) with guidance
- › Enjoy expressive and discovery activities; telling stories of own experiences and events
- › Demonstrate appreciative and attentive listening
- › Show willingness to take turns and share in conversation; participate in guided discussion
- › Ask many “why” questions
- › Identify rhyming words
- › Use compound sentences joined by “and,” “but,” “or,” “so,” “because”
- › Write letters with appropriate formation and directionality; begin with high-frequency letters in capital and common form; write letters of own name; begin to write a few words
- › Suggest the theme of a story or poem they have heard
- › Begin to use plural pronouns and tenses correctly
- › Begin to form letters and numerals correctly
- › Show preference for books: that are adventurous/silly; about giants, monsters, Brer Anancy, animals in people roles, machines; that have poetry, especially funny and nonsense words; with complex illustrations; with small/hidden objects on a page; with beautiful colours, patterns and stories about children
- › Relate sequence of events; use present and past tense
- › Sequence words to make longer sentences

### VALUING CULTURE

*If provided with the appropriate opportunities children will*

- › Recognize and participate in a variety of national, and ethnic traditions and cultural practices, e.g. Festival, Carnival, Food Festivals
- › Participate in cultural activities of school, church and community
- › Demonstrate socially acceptable behaviours, e.g. stand at attention when singing the National Anthem and saying the National Pledge
- › Discuss food associated with different ethnic Jamaican communities or groups
- › Recognize and name some of the national emblems/symbols/traditions, e.g. National Flower, Tree, Dish

# 4-YEAR-OLDS

## Term 2

## Developmental Objectives

### INTELLECTUAL EMPOWERMENT

*If provided with the appropriate opportunities children will*

- › Grasp concepts of past, present and future, but not duration of time
- › Begin to express information in various ways, e.g. models, drawings, paintings and text
- › Participate in activities to develop pre-numeracy skills in sorting, classifying, ordering, sequencing and patterning
- › Sort objects into groups and sets according to shape, size and number of sides
- › Sort, identify, name and describe simple geometric shapes, e.g. circle, square, triangle, rectangle
- › Use non-standard units, e.g. pencils and hand span to measure and record the length of objects; use mathematical language to express length
- › Explore the concept of weight using a variety of objects to express heavy and light
- › Use non-standard units to measure and record capacity, e.g. plastic containers of various sizes; use mathematical language to express capacity
- › Demonstrate understanding of daily routines, e.g. breakfast before lunch or washing hands before meals
- › Show curiosity and interest in different sounds, smells, tastes and textures found indoors and outdoors
- › Recognize and discuss different means of moving people and things from one place to another
- › Demonstrate an awareness of aspects of the weather, e.g. describe the day as being sunny, cloudy or rainy
- › Examine and discuss various types of machines and electronic tools
- › Identify and describe sounds made by different sources, e.g. water, motor vehicles or lawnmower
- › Identify basic needs of all living things; differentiate between living and non-living things
- › Sow seeds and observe their growth; record changes in growth of plants
- › Observe and discuss the characteristics of plants
- › Differentiate between plants and animals
- › Understand and follow classroom routines and procedures
- › Identify important places in the community
- › Associate events with time-related concepts, e.g. ice cream on Fridays, gifts for Christmas, Valentine's day, Mother's/ Father's day and birthdays
- › Use a variety of percussion instruments to respond to rhythms in jingles, finger-plays, rhymes, poems and stories
- › Experiment with creating sounds, sound patterns and rhythms by clapping, tapping, stomping, etc.
- › Pick up a beat in song, rhyme, poem for a number of locomotor activities, e.g. walking, sliding, tip-toeing
- › Distinguish between high and low sounds (pitch)
- › Recognize and respond to slow and fast rhythms and tempo
- › Paint on a variety of surfaces
- › Show awareness of straight and curved lines
- › Complete lacing cards on own
- › Use different media and materials in collage work; crush, tear and fold paper to make collages
- › Make representational drawings and paintings of objects, people and scenes from the environment

# 4-YEAR-OLDS

## Term 2

## Developmental Objectives

### **INTELLECTUAL EMPOWERMENT ( cont'd )**

- › Use pieces of wood and other materials to create objects
- › Differentiate colours in the environment
- › Talk about and express creatively a range of feelings such as joy, sorrow, disappointment, wonder in response to daily happenings and experiences
- › Continue to participate in expressive activities such as singing, dancing, puppetry and dramatic play
- › Share examples of how home, school and community express care and concern
- › Display some measure of honesty, fairness, curiosity and empathy; distinguish right from wrong

### **RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT**

*If provided with the appropriate opportunities children will*

- › Continue to develop a sense of self-worth and self-confidence; take pride in own work and effort; feel good about self; feel that they can succeed and experience success
- › Continue to demonstrate more independence and sense of responsibility
- › Continue to express a strong need for love, attention, affirmation from parents, teachers and all practitioners
- › Function appropriately as a member of a group, sharing, listening, taking turns, cooperating, negotiating disputes, being considerate and helpful
- › Participate in group games and cooperative play
- › Show curiosity about how and why things happen; how they work and suggest explanations
- › Continue to use courtesies and polite expressions, e.g. “Excuse me,” “Thank you,” “You are welcome” and “Please”
- › Display appropriate and responsible social behaviours in relation to the environment
- › Continue to practise social norms in appearance, personal grooming, hygiene practices and polite expressions
- › Give basic care under supervision to pets and plants in their environment
- › Investigate and discuss similarities and differences in their environment
- › Continue to empathize with and support peers who are visually impaired, hearing impaired, or who are otherwise challenged
- › Express fear, anger, affection, excitement, enthusiasm and disappointment in socially acceptable ways
- › Continue to express self through a variety of media in arts/crafts, music, games and dramatic play
- › Continue to listen courteously and in a supportive manner and share personal experience, stories and events
- › Continue to use materials in appropriate ways; care for materials in use; put away materials before starting new activity
- › Participate in games and activities to develop self awareness and individuality; begin to develop trust and confidence in self, own efforts and others
- › Suggest ways of showing love, care and affection to others
- › Resolve conflict without fighting
- › Continue to demonstrate ways of expressing gratitude to God, parents, friends and others
- › Continue to display responsible behaviour and self control at school, home and in the community

# 4-YEAR-OLDS

Term 2

Developmental Objectives

## RESILIENCE

*If provided with the appropriate opportunities children will*

- › Recognize the dangers of playing in the street or places frequented by vehicular traffic
- › Demonstrate knowledge of road safety rules
- › Make decisions and solve problems in a group setting
- › Continue to develop a sense of responsibility for own actions
- › Make decisions based on an understanding of right from wrong; express positive and negative feelings
- › Show increasing ability to adapt to different situations
- › Develop awareness of the consequences of playing with potentially dangerous objects such as matches, electrical outlets, knives, plastic bags, etc
- › In an emergency, know who to call
- › Show understanding of safe and unsafe practices
- › Persevere in completing tasks

# 4-YEAR-OLDS

Term 2

THEME: PLANTS

SUB THEME: What Are Plants?

Suggested Duration:  
1 Week

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> <li>› God made all <i>plants</i>; plants grow all over the world</li> <li>› Plants are <i>living</i> things; they need <i>food, air, sunlight</i> and <i>water</i> to live or they will die</li> <li>› New plants come from the <i>seeds, stems, leaves or roots</i> of older plants</li> <li>› Plants are different from other living things; they do not move from place to place as people or animals do</li> <li>› Plants are of different colours, shapes and sizes; some plants grow <i>big</i> and <i>tall</i>, e.g. <i>mango</i> and <i>soursop</i> trees; some plants are <i>little/small</i> and <i>short</i>, e.g. <i>sorrel</i> and <i>mint</i> plants</li> <li>› The words <i>soursop</i> and <i>sorrel</i> begin with the /s/ sound; the /s/ sound is represented by the letter “S”, “s”; the capital letter is written “S” and the common letter is written “s”</li> </ul>	<p><i>Children will engage in a wide range of activities in which they can</i></p> <ul style="list-style-type: none"> <li>› walk around in their school environment during outdoor time; observe and take pictures of big and small plants; assist in mounting a display; count number of big and small plants</li> <li>› do simple experiments to show that plants need air, water and sunlight to live and grow</li> <li>› help to set up plants to grow from different sources, e.g. seeds, leaf cuttings, stem cuttings and roots; care for growing plants and observe growth; talk about their daily observations</li> <li>› observe, compare, tell how plants are different in size, colour and smell</li> <li>› use non-standard units to measure young growing plants as well as other plants in the classroom; find the distance between some plants outdoors, e.g. how many footsteps or plastic drink bottles are between two plants</li> <li>› observe plants outdoors swaying in the wind and move bodies like the plants during musical experiences</li> <li>› listen to and read stories about growing plants, e.g. Jack and The Beanstalk, The Great Big Pumpkin, The Enormous Turnip</li> <li>› listen to and identify the /s/ sound</li> <li>› practise forming the letter “S” “s” in different ways, e.g. in sand, using crayons, pencils, in the air and on the desk; say rhymes, jingles, tell short stories using words with the initial /s/ sound such as Sally, salad, sun, sorrel and soursop</li> <li>› collect dried seeds, e.g. pumpkin seeds</li> <li>› use dried seeds to make musical instruments and art collages</li> </ul>	<p><i>(Not to be used as a list for spelling)</i></p> <ul style="list-style-type: none"> <li>plant</li> <li>food</li> <li>air</li> <li>sunlight</li> <li>water</li> <li>little</li> <li>small</li> <li>big</li> <li>short</li> <li>living</li> <li>seed</li> <li>beam</li> <li>stem</li> <li>leaf</li> <li>root</li> <li>mango</li> <li>sour sop</li> <li>sorrel</li> <li>mint</li> <li>tall</li> </ul>

# 4-YEAR-OLDS

Term 3

## Developmental Objectives

### WELLNESS

*If provided with the appropriate opportunities children will*

- › Continue to demonstrate increasing skills in coordination, self-control, balance, speed and agility in carrying out movements of the upper and lower limbs and for locomotor activity, including marching, skipping and galloping
- › Show increasing confidence and skill in the use of climbing indoor/outdoor equipment
- › Follow instructions in carrying out independent and group activities involving coordination, imagination and creativity
- › Judge physical placement, direction and timing with increasing accuracy
- › Adjust direction in movements; follow straight, curved and zigzag pathways
- › Participate in activities requiring improved competencies, aim and direction, e.g. kicking a ball in mid-air and throwing a ball overhead
- › Participate in ring games
- › Demonstrate increased competency and control in hand-eye coordination, e.g. lacing, using a pair of scissors and using construction toys
- › Include more detail in drawings, paintings, etc.
- › Print letters and numerals, copy shapes, sequences and patterns
- › Use a computer mouse to point and click
- › Be energetic and enthusiastic
- › Begin to understand right from wrong
- › Follow instructions and participate as a member of a group
- › Discuss with others who should do what in group activity
- › Display understanding of concepts of honesty and fair play
- › Demonstrate a strong sense of belonging
- › Resolve conflict with help if needed
- › Demonstrate curiosity about themselves, others and the world around them; talk freely about themselves and others
- › Be persistent in wanting their questions answered
- › Occupy self for longer periods of time
- › Play roles of familiar adults in their daily environment
- › Understand that people differ in various ways
- › Understand that some people are different because of their physical ability, race, size and shape
- › Express unwillingness at being touched by unauthorized persons
- › Begin to understand basic differences between healthy and unhealthy choices and preferences

**COMMUNICATION**

*If provided with the appropriate opportunities children will*

- › Tell, retell and make up, explain, interpret and act out stories
- › Adapt and create own games, songs and stories
- › Describe experiences, events and objects with some detail
- › Use present, past and future tenses in conversation and in relating experiences and events; speak Standard Jamaican English (SJE) with guidance
- › Demonstrate understanding that stories have a beginning, middle and end
- › Introduce self and others, welcome and thank others
- › Understand time concepts such as “late at night,” “early this morning,” “next week” and “once upon a time”
- › Engage in conversation with other children as well as with adults
- › Engage in group decision-making
- › Seek explanation of “why” and “how”
- › Begin to master some basic rules of grammar, e.g. past tense, plurals and comparatives
- › Use appropriate language to express basic understanding of number, size, weight, colour, texture, distance, position and time
- › Use exaggeration and words such as “enormous,” “huge” and enjoy extremes in their voices, e.g. shouting, whispering and telling ‘secrets’
- › Construct longer and more complex sketches
- › Identify a specific shape from among superimposed shapes
- › Predict cause and effect relationships and guess story outcomes; use future tense
- › Sequence a series of three to six pictures to tell a story or to tell a process
- › Write simple words, phrases and sentences
- › Talk about where they live, where other people live and what they do
- › Sequence words to make sentences of a story
- › Express preference for
  - picture books
  - traditional literature
  - myths, fables, fairy tales, poetry

**VALUING CULTURE**

*If provided with the appropriate opportunities children will*

- › Begin to show awareness of and interest in images projected in media such as television and newspapers
- › Develop an awareness of different sub-cultures in the community, e.g. Rastafarian and Maroon
- › Participate in national celebrations held in school, community and country

# 4-YEAR-OLDS

## Term 3

## Developmental Objectives

### VALUING CULTURE ( cont'd )

- › Understand that families live in communities; demonstrate an appreciation for differences in people who live in the community
- › Enjoy participating in activities involving music, rhythms, rhymes, puppetry and storytelling
- › Talk about ways in which national events such as Independence Day and Heroes' Day are celebrated
- › Be familiar with the National Flag
- › Talk about ways each person can be a good member of family, community and country
- › Talk about other cultural celebrations such as Lunar New Year and Divali

### INTELLECTUAL EMPOWERMENT

*If provided with the appropriate opportunities children will*

- › Recognize and enjoy rhythms songs and rhymes
- › Begin using a wide range of movements and extending the coverage of physical space during movement
- › Paint on a variety of surfaces
- › Continue to use different media and materials in collage work and other forms of expression
- › Develop more control in using scissors and other materials, tools and equipment
- › Produce straight and curved lines and demonstrate knowledge of the difference
- › Continue to make representational drawings of objects, people and scenes from the environment
- › Illustrate events, people, stories and objects related to theme through painting, drawing and creating collages
- › Create and use masks, puppets and other props
- › Talk about own creative efforts and those of others
- › Participate in dramatic play/activities which focus on a wide range of community helpers
- › Use role-play and improvisation to demonstrate the importance of community helpers and to appreciate their contribution to the community
- › Participate in role-playing activities and improvisation to develop practical problem-solving techniques
- › Begin to assume the role of a character in a story; give reasons for the choices made by that character

### RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT

*If provided with the appropriate opportunities children will*

- › Begin to develop and demonstrate a sense of trust in God, parents, practitioners, friends and others
- › Continue to use materials in appropriate ways
- › Continue to respect and care for classroom environment and materials

# 4-YEAR-OLDS

## Term 3

## Developmental Objectives

### RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT ( cont'd )

- › Put away used materials before starting another activity
- › Adhere to rules and show respect for authority; recognize authority which is clear and fair
- › Continue to develop a sense of self-worth and confidence; take pride in own work and effort; feel good about self; feel that they can succeed and experience success
- › Continue to demonstrate more independence and sense of responsibility
- › Continue to express a strong need for love, attention and affirmation from parents and practitioners
- › Display appropriate and responsible social behaviours in relation to the environment
- › Continue to display an understanding of and practise social norms in appearance and expression, e.g. personal grooming
- › Display strong sense of belonging – to family, group, school, community
- › Show awareness and appreciation of roles of different people in the community
- › Continue to listen courteously and in a supportive manner and share personal stories and events
- › Continue to empathize with and support peers who are visually impaired, hearing impaired or who are otherwise challenged
- › Continue to express fear, anger, affection, excitement, enthusiasm and disappointment in socially acceptable ways

### RESILIENCE

*If provided with the appropriate opportunities children will*

- › Continue to demonstrate the ability to cope with frustration, anger, disappointment, rejection, grief, etc. in socially acceptable ways
- › Continue to use and express self through a variety of media in art and crafts, music, games, dramatic play, etc.
- › Begin to resolve conflict without fighting
- › Be assertive about their needs and desires
- › Continue to develop a sense of responsibility for own actions
- › Continue to make decisions based on right from wrong
- › Express positive and negative feelings
- › Continue to show increasing ability to adapt to different situations
- › Continue to develop an awareness of the consequences of playing with potentially dangerous objects such as matches, electrical outlets, knives, plastic bags, etc.
- › Recall what to do in an emergency; recognize when in need of help and when to seek adult attention
- › Discuss the dangers of play activities which could be hazardous, such as hiding in abandoned appliances and car trunks; climbing to unsafe heights; imitating dangerous stunts such as those seen on television; and throwing stones
- › Select safe places to play

# 4-YEAR-OLDS

Term 3 THEME: PEOPLE IN OUR COMMUNITY

SUB THEME: What Is Community ?

Suggested Duration:  
2 Weeks

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> <li>› A <i>community</i> is a place where people live, go to church, go to school, go to work, or play together</li> <li>› A community has <i>people</i> of different age groups, both <i>adults</i> and <i>children</i></li> <li>› A community has <i>buildings</i> of different sizes, shapes and colours</li> <li>› Communities are different from each other; some are in the town/city areas and some are in the country areas</li> <li>› Some communities are large with <i>many</i> people and some are small with <i>fewer</i> people</li> </ul>	<p><i>Children will engage in a wide range of activities in which they can</i></p> <ul style="list-style-type: none"> <li>› go on a field trip in their school’s community; in pairs observe and talk about the persons, buildings, animals and activities they see; create songs about their community and sing and dance to them</li> <li>› observe and compare the different shapes, sizes and colours of buildings, e.g. <i>square and rectangle; tall and short; blue and yellow</i></li> <li>› identify and name important buildings, e.g. <i>fire or police station, church and clinic</i></li> <li>› play memory games about buildings in their community, e.g. types of buildings, colours and shapes</li> <li>› interact with community members by going to the barber, buying goods, e.g. toys, food from supermarket/vendors, using play money; talk about <i>city</i> and <i>country</i> visits</li> <li>› label buildings on a community map</li> <li>› identify the order of buildings seen, e.g. <i>first, second, third, fourth, fifth</i>; help to make a community diorama with buildings, toy people, animals, vehicles and more; label items</li> <li>› talk, after the field trip, about what they saw in the community using past tense, e.g. I saw and I went</li> <li>› tell their own stories about a visit to one of the community buildings</li> <li>› listen to, retell and dramatize stories</li> </ul>	<p><i>(Not to be used as a list for spelling)</i></p> <p>community people adults children buildings many fewer country town city first second third fourth fifth police station church school clinic</p>

# 5-YEAR-OLDS

## Term 1

## Developmental Objectives

### WELLNESS

*If provided with the appropriate opportunities children will*

- Continue to demonstrate greater motor coordination, self-control, agility in all previously acquired gross motor skills including marching, skipping, galloping
- Continue to engage in imaginative and creative play indoors and outdoors, involving others
- Continue to join in-group activities that require team effort
- Demonstrate increasing mastery in gross motor skills needed in sporting activities such as football, cricket, dancing and swimming
- Demonstrate increasing mastery in fine motor skills, e.g. forming letters, numbers, shapes, using scissors, completing intricate puzzles, using the computer keyboard
- Disassemble and reassemble objects; build 3-dimensional block structures
- Freely choose and try out new tasks
- Demonstrate increasing competence in self-help skills and chores at home and school
- Tell their phone number, address and other personal information
- Demonstrate strong sense of belonging and being a member of a group
- Demonstrate ability to successfully enter into play situations with peers
- Acknowledge the importance of having adequate rest, sleep and physical activity
- Demonstrate improved judgement of space and distance in games, sports and use of equipment
- Suggest ways in which accidents can be avoided

### COMMUNICATION

*If provided with the appropriate opportunities children will*

- Create and use sentences that make statements, ask questions and show excitement
- Respond to a story with discussion and questions about the characters and plot
- Listen and respond to texts through a variety of media and activities
- Predict and represent outcomes for stories; dramatize events in a story; enact the role of any selected character; suggest alternative versions of and outcomes for stories
- Follow complex instructions
- Ask questions to seek clarification
- Continue to engage in two-way conversations; take turns in a discussion, listen to a speaker without interrupting
- Recall and use previous knowledge and information for problem-solving
- Continue to interpret pictures, photographs, diagrams and other forms of presentation with adult assistance

# 5-YEAR-OLDS

Term 1

## Developmental Objectives

### COMMUNICATION (cont'd)

- Begin to introduce, welcome and thank visitors with adult supervision
- Repeat rhymes, jingles, verses, poems, etc.
- Participate in choral speaking activities
- Continue to show enjoyment while being read to
- Continue to identify likenesses and differences in symbols, shapes, letters, words and sentences
- Continue to comprehend and use complex sentences
- Produce or sequence a number of pictures or creative expressions to tell a story
- Engage in a variety of activities for composing creative writing and expression
- Use pictures and other forms of expression to relate experiences
- Share creative expressions with others and talk about own writing
- Continue to effectively use phonics to “sound-out” words along with other word attack strategies
- Identify some sight words
- Continue to identify patterns in word families
- Continue to give instructions; explain how to do or make things, e.g. recipes or directions
- Reproduce oral patterns of speech with increasing complexity
- Clap to the rhythm of words and phonemes (syllabication)
- Correctly use plurals, pronouns and tenses; correct own grammar and language use
- Identify selected initial blends
- Blend phonemes (individual letter sounds) to make words
- Identify and explain symptoms when they are unwell
- Improvise given scenarios and retell the event in sequential order; suggest changes

### VALUING CULTURE

*If provided with the appropriate opportunities children will*

- Demonstrate preferences for play with same gender; have best friends
- Participate in sports and cultural activities of school, church and community
- Become familiar with the accomplishments of Jamaican athletes, musicians and other performers
- Continue to enjoy and participate in stories and songs about people and events from their own and other countries
- Recognize and appreciate similarities and differences among themselves

# 5-YEAR-OLDS

## Term 1

## Developmental Objectives

### VALUING CULTURE (cont'd)

- Continue to understand and behave respectfully towards cultural practices and religions that are different from theirs
- Respond to and show appreciation for music of different cultural and ethnic communities
- Show awareness of foods, dress, festivals or celebrations of other cultures
- Recognize national symbols: dress, anthem, pledge, heroes, song, flag, foods
- Know and sing the National Anthem
- Know and can recite the National Pledge
- Observe and exhibit rules in respect of national symbols and protocols

### INTELLECTUAL EMPOWERMENT

*If provided with the appropriate opportunities children will*

- Continue to investigate and expand knowledge about self, others and the environment
- Continue to express themselves using a variety of media
- Continue to apply known or new information to a new situation
- Select samples of work for display and give reasons for their selection
- Continue to use pictographs to represent information
- Continue to classify objects and numbers into groups or sets up to 20; write numerals, read and write numbers names up to 20
- Continue to use number patterns to solve problems
- Count by ones (1) and twos (2) up to twenty (20)
- Make sets of and bundle materials in groups of 2, 5 and 10
- Continue to use drawings to show, model and solve problems
- Create and write simple mathematical sentences and understand their meaning
- Continue to use ordinal numbers 1<sup>st</sup> to 5<sup>th</sup>
- Use symbols to show comparison (equal, less than, greater than)
- Use the number line appropriately for activities that include comparing numbers, sequencing numbers, and skip counting
- Combine and partition sets to solve problems
- Make sets using pictures and objects up to 20
- Identify and name shapes, including circle, triangle, star, square, rectangle, oval and heart, using templates for creating patterns and pictures
- Classify 2-D shapes and 3-D objects
- Begin to construct and interpret simple pictographs/ bar graphs related to themes and own experiences

**INTELLECTUAL EMPOWERMENT (cont'd)**

- Perform addition and subtraction with regrouping
- Perform addition and subtraction without renaming
- Name and use days of the week and months of the year in sequence
- Continue to associate events with time-related concepts, e.g. use the calendar for field trips, ice cream days, sports days, Open Day, birthday
- Match time on the clock, on the hour with an event
- Read dates from the calendar
- Use money in role-playing activities
- Recognize the value of some Jamaican coins and paper money
- Use both non-standard and standard units to measure length and height of objects as well as distance
- Differentiate between living and non-living things
- Identify the basic needs of living things
- Describe, compare and classify objects according to an increasing number of characteristics and details
- Learn about various types of machines and electronic tools, e.g. cassette recorder, video recorder, television and computer, in appropriate ways
- Discuss the types, forms and importance of transportation used to move people and things from one place to another
- Explore a wide range of movements both independently and with others, in using space
- Recall, imitate and create own simple rhythmic patterns by clapping, tapping and playing a variety of percussion instruments
- Perform specific movements to musical beats; begin to create a sequence of movements in response to different stimuli, e.g. rhythmic clapping and beating of a drum
- Recognize and enjoy rhythm in songs and rhymes
- Continue to use choral expression to develop memory, concentration and self-expression; participate in class/group programmes
- Learn simple dances; perform dances and recite choral verses; sing songs
- Participate in expressive activities and dramatic play about experiences that demonstrate honesty, fairness, acceptance, feeling left out, trustworthiness, loyalty, obedience
- Use a variety of media to draw, paint, print
- Draw, paint and print to depict emotions
- Use recycled materials to make costumes and props to be used in dramatic activities
- Engage in activities that emphasize conservation and recycling
- Be able to maintain attention and concentration for longer periods

# 5-YEAR-OLDS

## Term 1

## Developmental Objectives

### RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT

*If provided with the appropriate opportunities children will*

- Show understanding of good moral judgement, e.g. that stealing and lying are wrong
- Continue to respect and support individual differences and persons with different abilities
- Develop team spirit through cooperative play in sports and games
- Show self-respect
- Establish positive relationships with other children and adults
- Show sensitivity to the needs and feelings of others
- Recognize and observe street safety rules
- Continue to use courtesies and social graces appropriately
- Continue to show appreciation for own work and that of others
- Function appropriately as a member of a group – sharing, listening, taking turns, cooperating, being considerate and helpful
- Demonstrate the ability to self regulate in conflict situations, articulating emotions and negotiating disputes
- Continue to resolve conflicts with assistance if needed
- Participate in an increasing number of activities and games with rules
- Cooperate with others while participating in individual, cooperative and competitive games, sports and other activities
- Display socially acceptable values and attitudes, e.g. willingness to show fairness, honesty, tolerance and trust, and to share and care
- Demonstrate trust in self, authority and others
- Practise social norms in appearance and expression, e.g. good hygiene, use of appropriate and polite expressions, personal grooming and dress code

### RESILIENCE

*If provided with the appropriate opportunities children will*

- Persevere in completing tasks; exercise some patience and persist with learning challenges
- Demonstrate increased awareness of safety in use of equipment and managing own self
- Exercise care in the learning/school environment and playground or playfield
- Call for help in an emergency or when in danger
- Recall and demonstrate how to use emergency telephone numbers
- Respond routinely to playground rules
- Show increased awareness of natural and other disasters such as hurricanes and earthquakes and learn age-appropriate responses to these

# 5-YEAR-OLDS

Term 1

Developmental Objectives

## **RESILIENCE (cont'd)**

- Take appropriate measures when dealing with cuts and bruises
- Respond appropriately to minor accidents in their environment
- Deal with their emotions calmly, using the appropriate terms and without demonstrating negative behaviours

# 5-YEAR-OLDS

Term 1    THEME: OUR COUNTRY JAMAICA – OUR PEOPLE    SUB THEME: Out of Many One People

Suggested Duration:  
1 Week

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> <li>› A long time ago many people came from different countries to live here in <i>Jamaica</i>; they came from countries in <i>Africa</i>, from <i>India</i>, <i>China</i>, <i>Spain</i>, <i>England</i> and other countries</li> <li>› The different groups of people who came to Jamaica from Asia, Africa and Europe, brought their language, religion, dress, food, music and dance</li> <li>› Every country has a <i>heritage</i>; heritage means those things such as our culture and practices that have been passed down from previous generations</li> <li>› <i>Jamaica</i> has many <i>symbols</i> that remind us of our heritage</li> <li>› The Coat of Arms has the Jamaican Motto ‘Out of Many, One People’; this shows that our people who came from Asia, Africa and Europe and live in Jamaica are all one</li> <li>› All people born in Jamaica are <i>Jamaicans</i></li> <li>› Jamaicans celebrate our nation’s Independence Day on August 6</li> <li>› Independence means that a country has its own leaders who make decisions about the country and its people</li> </ul>	<p><i>Children will engage in a wide range of activities in which they can</i></p> <ul style="list-style-type: none"> <li>› view video clips, DVDs and pictures of Jamaican scenery and people; talk about Jamaica and Jamaicans; talk about their own family heritage</li> <li>› review the Alphabet song and review letter names</li> <li>› listen to stories about our Jamaican heritage, e.g. Miss Lou tales</li> <li>› observe pictures of the different races of people that live in Jamaica</li> <li>› examine, count and tell how many persons from the various ethnic groups can be seen in the picture</li> <li>› participate in Jamaican ring games</li> <li>› identify the Jamaican flag from among others</li> <li>› do movements or dance to a medley of Jamaican, African, European, Chinese and Indian folk music</li> <li>› learn and repeat the Jamaican National Pledge, the Jamaican Motto and the Jamaican National Anthem</li> </ul>	<p><i>(Not to be used as a list for spelling)</i></p> <p>heritage Jamaica Jamaican Africa India China Spain England motto symbol anthem pledge</p> <p><u>SIGHT WORDS</u></p> <p>Jamaica out of many</p>

**WELLNESS**

*If provided with the appropriate opportunities children will*

- › Continue to demonstrate greater motor coordination, self-control, speed, agility in all previously acquired gross motor skills including marching, skipping, galloping
- › Continue to engage in imaginative and creative play indoors and outdoors
- › Enjoy independent and group/team activities
- › Continue to imitate movement of things in the environment such as trees, animals, etc. with increasing confidence
- › Drop a ball and kick it before it falls to the ground
- › Use a bat to hit a ball
- › Develop basic gymnastic skills
- › Copy shapes, e.g. circle, triangle, rectangle, oval, and heart; combine more than two geometric forms in drawing and construction
- › Write most letters of the alphabet in upper and lower case
- › Use computer keyboard with increasing familiarity
- › Draw scenes that include more details and objects
- › Exercise increased control and safety when using materials, toys and tools
- › Disassemble and reassemble objects
- › Build 3-dimensional block structures
- › Join in expressive activities, e.g. singing, dancing and story-telling
- › Choose and try out new tasks; discuss with other children how tasks can be done
- › Demonstrate increasing competence in self-help skills and chores at home and school
- › State their phone number, address and other personal information about self, home and school
- › Talk freely about where they live and where other people live
- › Continue to resolve conflict, with assistance if needed
- › Display self-confidence when interacting with others
- › Discuss the importance of having adequate rest, sleep and physical activity
- › Display reasonable judgement of space and distance in sports, games and athletic activities involving use of equipment

**COMMUNICATION**

*If provided with the appropriate opportunities children will*

- › Use various types of sentences, e.g. statements, questions and exclamations
- › Listen and respond to texts through a variety of media and activities
- › Predict and represent outcomes for stories; dramatize events in a story
- › Follow and give complex instructions
- › Understand and describe various concepts
- › Ask for and seek clarification
- › Exercise appropriate behaviour when engaged in conversation, e.g. take turns in a discussion, listen to a speaker without interruption
- › Recall and use previous knowledge and information for problem-solving
- › Interpret pictures, photographs, diagrams and other forms of presentations with or without adult assistance
- › Use appropriate courtesies in interacting with others, e.g. introduce, welcome and thank visitors with adult supervision
- › Participate in choral speaking activities, rhymes, jingles, verses and poems
- › Express pleasure in being read to
- › Continue to identify likenesses and differences in symbols, shapes, letters, words and sentences
- › Continue to engage in a variety of activities for enhancing listening, speaking, reading and writing skills with increased challenge
- › Produce or sequence a number of pictures to tell a story
- › Engage in a variety of activities for composing creative writing and expression; use pictures and other forms of expression to demonstrate creativity
- › Share and talk about their own creative expressions, e.g. drawings and writings with others
- › Continue to effectively use phonics and other word attack strategies
- › Continue to identify patterns in a set of words
- › Document and prepare information collected in a variety of ways for presentation and sharing with others
- › Continue to give, write and follow more complex instructions, e.g. how to do or make things, write recipes, and give directions to go somewhere
- › Understand and use speech patterns with increasing complexity; correctly use singular, plural, nouns, pronouns and tenses
- › Spontaneously correct own grammar and language use
- › Identify and count syllables in words
- › Identify selected initial blends
- › Manipulate phonemes in words, e.g. blending and segmenting

**VALUING CULTURE**

*If provided with the appropriate opportunities children will*

- › Participate in cultural activities of school, church and community
- › Recognize and participate in a variety of national, regional and ethnic traditions and cultural practices
- › Participate in sports and other athletic activities of school, church and community
- › Develop team spirit for co-operative and competitive sports and games
- › Develop greater familiarity with the accomplishments of athletes, artists, musicians, and other performers
- › Continue to enjoy and participate in stories and songs about people and events in Jamaica
- › Recognize national symbols, e.g. flag or coat of arms, as well as National Anthem, Pledge, Heroes, Song, dress and foods
- › Know and can recite the National Pledge
- › Know and can sing the National Anthem
- › Observe rules and protocols in respect of national symbols
- › Discuss food associated with different ethnic Jamaican communities or groups

**INTELLECTUAL EMPOWERMENT**

*If provided with the appropriate opportunities children will*

- › Investigate and expand knowledge about self, others and the environment
- › Express their knowledge using a variety of media
- › Apply information and vocabulary to a new situation or context
- › Select samples of work for display and give reasons for their selection
- › Use pictographs to represent information
- › Classify objects and numbers into groups or sets; write numerals and read and write number names up to 20
- › Use patterns to solve mathematical problems
- › State the place value and value of each digit in a two-digit number
- › Count in ones up to 100
- › Make sets and bundles of materials in groups of 5 and 10 to 100
- › Count in twos up to 20
- › Use drawings to show, model and solve problems
- › Read, write and use ordinal numbers 1st to 10th
- › Recognize and use the zero concept

**INTELLECTUAL EMPOWERMENT ( cont'd )**

- › Use symbols to show comparison (=, <, >)
- › Combine and partition sets to solve problems
- › Identify and name shapes, e.g. circle, triangle, square, rectangle, oval, heart and diamond
- › Use geometric templates to create patterns and pictures
- › Classify 2-D shapes (polygons) according to common characteristics, e.g. size, sides, corners
- › Construct and interpret simple pictographs and bar-graphs
- › Name and use the days of the week and months of the year in sequence
- › Perform addition and subtraction without regrouping
- › Match time on the clock with an event
- › Match events to calendar dates such as sports day, birthdays
- › Tell time on the hour
- › Read dates from the calendar
- › Use money in role-play or pretend activities
- › Recognize the value of some Jamaican coins and paper money
- › Use non-standard units to measure length and height of objects, distances and perimeter of objects
- › Describe, compare and classify objects according to an increasing number of characteristics
- › Use various types of machines and electronic tools appropriately, e.g. cassette recorder, video recorder television and computer
- › Identify the basic needs of all living things
- › Differentiate between living and non-living things
- › Discuss the types, forms and importance of transportation
- › Produce and interpret simple floor plans and maps, including inserting and locating places, indicating directions, locations and landmarks
- › Continue to enjoy participating in music and movement activities
- › Move creatively to rhythm and beat
- › Explore dance movements with others using a wide range of motions and extending the coverage of space
- › Recall, imitate and create own simple rhythm patterns by clapping, tapping, or playing a variety of percussion instruments
- › Create a sequence of movements in response to different stimuli, e.g. sound, rhythm, poem or voice
- › Recognize and enjoy rhythms in songs and poems
- › Learn and perform simple dances
- › Participate in expressive activities and dramatic play
- › Use a variety of media to draw, paint, print
- › Draw, paint and print to depict emotions
- › Improvise given scenarios and retell the event in sequential order
- › Use found and recycled materials to make costumes and props to be used in dramatic activities

**RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT**

*If provided with the appropriate opportunities children will*

- › Begin to demonstrate good moral judgement
- › Show respect for children of either gender
- › Play co-operatively with others in competitive and non-competitive sports, games and athletic activities
- › Develop team spirit
- › Show self-respect
- › Establish positive relationships with other children and adults
- › Show sensitivity to the needs and feelings of others
- › Respect and support persons with different abilities
- › Use courtesies and social graces
- › Work independently and co-operatively in groups
- › Show appreciation for own work and that of others
- › Follow rules in games, sometimes with prompting
- › Maintain attention on task for longer periods
- › Function appropriately as a member of a group, e.g. sharing, listening, taking turns, cooperating, negotiating disputes and being considerate and helpful
- › Participate in an increasing number of activities and games with rules
- › Demonstrate respect for equipment, materials and the property of other persons
- › Display socially acceptable values and attitudes, e.g. fairness, honesty, tolerance, trust, sharing and caring
- › Demonstrate trust in self, authority and others
- › Be responsible, productive members of a team
- › Be able to engage effectively in cooperative learning
- › With assistance, practise social norms in appearance and expression, e.g. practice in hygiene, use of appropriate and polite expressions, personal grooming and dress code

# 5-YEAR-OLDS

Term 2

Developmental Objectives

## RESILIENCE

*If provided with the appropriate opportunities children will*

- › Persevere in completing tasks; exercise some patience and persist with learning challenges
- › Accept suggestions and/or other points of view in completing challenging tasks
- › Demonstrate awareness of safety in use of equipment and when playing contact sports and games
- › Exercise care in the learning environment and on the playground or playfield
- › Demonstrate an awareness of safety during play
- › Demonstrate how to seek or call for help in an emergency or when in danger
- › Use recognized danger response systems
- › Recall and demonstrate how to use emergency telephone numbers
- › Recognize the dangers of playing in the street or places frequented by vehicular traffic
- › Discuss and demonstrate road safety rules
- › Respond routinely to all playground rules
- › Show increased awareness of natural and other disasters such as hurricanes and earthquakes, floods; learn age appropriate responses to these
- › Take precautionary measures when dealing with cuts and bruises
- › Recognize and observe road safety rules

# 5-YEAR-OLDS

Term 2

THEME: TRANSPORTATION

SUB THEME: Types of Air Transportation

Suggested Duration:  
2 Weeks

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> <li>› We use various types of transportation to carry goods and to take us from place to place</li> <li>› We can travel by <i>air</i> or sea, as well as by land</li> <li>› <i>Aeroplanes, jets, helicopters, hot-air balloons</i> and <i>gliders</i> are types of air transportation.</li> <li>› Aeroplanes and helicopters can be <i>small, medium, or large</i> and are used for different purposes</li> <li>› Aeroplanes are used to transport people and goods from place to place; some planes transport only goods</li> <li>› Helicopters are used for rescue missions, recreational activities, wars, and business purposes</li> <li>› Hot air balloons are used for recreational purposes</li> <li>› We can estimate and measure the distance travelled by an object</li> <li>› <i>Transportation, aeroplanes, and helicopters</i> are long words</li> <li>› The /h/ sound is found at the beginning of the words <i>helicopter</i> and <i>high</i>; the /h/ sound is represented by the letter “H” “h”; the capital letter is written “H”, and the common letter is written “h”</li> </ul>	<p><i>Children will engage in a wide range of activities in which they can</i></p> <ul style="list-style-type: none"> <li>› use videos, DVDs, pictures, charts, posters and stories about transportation by land</li> <li>› distinguish between reasons for travelling by land and air</li> <li>› distinguish between near (places in the district or community) and <i>far</i> (Kingston from Montego Bay or Jamaica from ` America, or from China)</li> <li>› participate in a field trip to an airstrip, or airport to view types of aeroplanes; draw and write about the trip in their journals</li> <li>› sort picture cards of things that fly and things that cannot fly; suggest reasons why things cannot fly</li> <li>› make toy planes from a variety of materials and experiment with flying them outdoors</li> <li>› read stories, sing songs and dramatize about travelling by air and land (real or imaginary)</li> <li>› compare and sequence small, medium and large balloons, toys or model planes</li> <li>› use long words to create and read a list of c-v-c combinations and other words</li> <li>› fly paper planes and use non-standard measures, e.g. giant steps and baby steps, to calculate the distance covered</li> <li>› tell the number of syllables heard within a word as they clap</li> <li>› listen to, identify and reproduce the /h/ sound; practise using the letter “H” “h” in free writing activities</li> </ul>	<p><i>(Not to be used as a list for spelling)</i></p> <p>transportation small medium large far aeroplanes helicopters high hot air balloons jet air glider</p> <p><u>SIGHT WORDS</u></p> <p>it can is go away</p>

**WELLNESS**

*If provided with the appropriate opportunities children will*

- › Engage in imaginative and creative play indoors and outdoors; join in independent and group activities that involve co-ordination, speed and balance
- › Imitate movement of things in the environment, such as a bird flying, a tree swaying, etc.
- › Demonstrate increasing dexterity in fine motor coordination; trace and draw geometric forms, symbols; write letters and numerals; use appropriate spacing in writing; manipulate materials – playdough, scissors; put small items such as Lego blocks together
- › Use a computer mouse and keyboard with increasing skill
- › Produce drawings with increasing amount of detail
- › Continue to exercise increased control and safety when using materials, toys and tools
- › Continue to enjoy expressive activities including music and movement
- › Use conflict resolution strategies, showing ability to discuss feelings, and ability to self regulate
- › Demonstrate increasing awareness of self, acknowledging personal strengths and weaknesses
- › Continue to demonstrate curiosity about themselves, others and the world around them
- › Display increasing self confidence when interacting with others

**COMMUNICATION**

*If provided with the appropriate opportunities children will*

- › Give and receive information in conversation, using appropriate courtesies
- › Extend courtesies to others, such as introduce, welcome and thank visitors with increasing confidence
- › Listen to and describe various concepts; ask for and seek clarification
- › Recall and use previous knowledge and information for problem-solving
- › Predict and represent outcomes for stories; suggest alternative versions
- › Dramatize events in a story; enact the role of any selected character
- › Follow and give increasingly complex instructions
- › Participate in discussions and make predictions about what is seen and heard on printed and electronic media
- › Interpret pictures, photographs, diagrams and other forms of visual presentation
- › Continue to show enjoyment while being read to
- › Identify likenesses and differences in symbols, shapes, letters, words and sentences with increasing attention to details
- › Engage in a variety of activities for enhancing greater listening and speaking, reading and writing skills; participate in letter/word games with increasing challenge and complexity

# 5-YEAR-OLDS

Term 3

## Developmental Objectives

### COMMUNICATION ( cont'd )

- › Produce and sequence a larger number of pictures or creative expressions to tell a story
- › Share creative expressions with others and talk about own writing
- › Use phonics and other word attack strategies with increasing skill
- › Identify and use more complex patterns in word families
- › Engage in information gathering activities; use books as a resource to find answers to questions
- › Present information to an audience using a variety of media and modes
- › With increasing detail, give instructions for a simple recipe
- › Prepare various kinds of text, e.g. invitations, greeting cards, letters and posters
- › Read and interpret various texts, e.g. picture books, concept books and story books

### VALUING CULTURE

*If provided with the appropriate opportunities children will*

- › Demonstrate an appreciation for folklore
- › Recite the National Pledge and sing the National Anthem; recognize and discuss the National Symbols, National Dish
- › Show increasing appreciation for local culture and awareness of other cultures, e.g. celebration of holidays such as Divali and Chinese Lunar New Year
- › Talk about masks and costumes used in Jamaican traditional celebrations and dances
- › Develop knowledge and appreciation of local industries such as tourism, farming, fishing, music and others
- › Demonstrate interest in caring for the environment and our country Jamaica
- › Understand the concept “Independence” and suggest when, why and ways in which Independence is celebrated
- › Discuss individual rights and responsibilities and some basic civic values as they relate to being Jamaican citizens
- › Observe and carry out practices of national protocol, e.g. standing at attention for the National Anthem, appropriate use of the Jamaican flag
- › Continue to develop an awareness of persons who have excelled in performance and contribution to our country, Jamaica
- › Review significant aspects of the lives and accomplishments of the National Heroes and Heroine of Jamaica
- › Review rules and responsibilities at home and school; identify some rules and laws of our country

**INTELLECTUAL EMPOWERMENT**

*If provided with the appropriate opportunities children will*

- › Use money appropriately; recognize the value of most Jamaican coins and notes
- › Use non-standard and standard units to measure length, height, perimeter and capacity
- › Use a variety of scales to weigh objects
- › Recognize the three states of all things, i.e. solid, liquid or gas; observe and experiment with materials as they change through mixing, heating, freezing
- › Differentiate between day and night
- › Observe and classify materials and objects that sink and float in water
- › Recognize and predict weather patterns; use appropriate terms to describe different kinds of weather and discuss how each affects our daily life
- › Identify and describe different weather conditions such as thunder, lightning, wind, clouds, rainbow and others; record information about the weather
- › Discuss sources and uses of water; discuss some ways of conserving water
- › Identify location and direction based on the compass points, i.e. north, south, east, west; use compass points and appropriate terms when giving direction
- › Produce and interpret simple floor plans and maps
- › Use a map of the school, immediate community and of Jamaica to locate specific areas of interest
- › Continue to associate events with time-related concepts, celebrations and activities at home and school and nationally
- › Describe the varying physical features of Jamaica
- › Participate in activities involving improvisation using voice and/or instrument
- › Create own song and use a variety of melodies and instruments
- › Recall and imitate simple rhythmic patterns in a variety of ways
- › Participate in class/group/individual choral expression or performance
- › Use a variety of art media in creative expressions such as art and crafts, movement, drama and the like
- › Work collectively to create masks, puppets, costumes and instruments to be used in a whole class/group dramatic presentation; participate in role-play activities using a variety of props, costumes and materials
- › Discuss and use improvisation and other expressive forms to indicate the main ideas found in folklore – poems, songs, stories, myths
- › Use found and recycled materials to make costumes and props to be used in dramatic activities while fostering a sense of conservation
- › Talk, sing songs, retell and relate stories and poems about events from the Bible and other books that demonstrate cultural and religious beliefs and practices
- › Continue to use all senses to investigate and expand knowledge about self, others and the environment
- › Continue to apply what is known (knowledge or experience) to a new situation or context; draw on everyday experiences and apply this knowledge to similar situations
- › Select samples of work for display and/or assessment and give reasons for their selection independently
- › Use and interpret more complex and varied graphs to represent information
- › Write numerals and number names 1 to 20
- › Create and solve their own math problems
- › State the place value and value of each digit in a two-digit number

**INTELLECTUAL EMPOWERMENT ( cont'd )**

- › Count in ones and twos up to 100; make sets of and bundle material in groups of 5, 10 and 20 to 100
- › Use the number line appropriately for activities that include comparing numbers, sequencing numbers, skip-counting, adding and subtracting
- › Combine and partition sets to solve more complex problems
- › Identify, name and trace shapes including circle, triangle, square, rectangle, oval, heart, diamond, star
- › Use templates to create patterns and pictures
- › Classify 2-D shapes according to common characteristics, e.g. size, sides, corners
- › Construct and interpret simple pictographs, bar-graphs
- › Perform addition and subtraction without regrouping and with regrouping
- › Continue to name and use the days of the week and months of the year in sequence with increasing awareness of time
- › Tell time by the hour and half-hour
- › Read dates from the calendar
- › Use money appropriately; recognize the value of most Jamaican coins and notes
- › Use non-standard and standard units to measure length, height, perimeter and capacity
- › Use a variety of scales to weigh objects
- › Recognize the three states of all things, i.e. solid, liquid or gas; observe and experiment where possible

**RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT**

*If provided with the appropriate opportunities children will*

- › Discuss ways of showing respect to all; especially those who seem different in any way
- › Understand things from the viewpoint of others but confidently hold own point of view
- › Show care and concern for others, living things and objects in the environment
- › Show appropriate self-respect
- › Establish effective relationships with other children and adults
- › Show sensitivity to the needs and feelings of others
- › Continue to use courtesies and social graces appropriately
- › Continue to work independently and co-operatively in groups
- › Continue to show appreciation for own work and that of others
- › Recognize there are different ways of solving problems peacefully

# 5-YEAR-OLDS

## Term 3

## Developmental Objectives

### **RESPECT FOR SELF, OTHERS AND THE ENVIRONMENT ( cont'd )**

- › Discuss individual rights and responsibilities and some basic civic values – as they relate to being Jamaican citizens
- › Display socially acceptable values and attitudes, e.g willingness to show fairness, etc. to trust, share and care
- › Discuss the beauty of the environment; develop pride and sense of caring for the environment

### **RESILIENCE**

*If provided with the appropriate opportunities children will*

- › Suggest ways in which accidents can be avoided
- › Discuss natural disasters such as severe changes in the weather as in tropical storms, hurricanes and earthquakes
- › Demonstrate an awareness of what drugs are and their importance in health care
- › Distinguish between legal and illegal drugs; state some examples of each; state some of the dangers of using illegal drugs
- › Demonstrate how to seek or call for help in an emergency or when in danger
- › Recall and demonstrate how to use emergency telephone numbers
- › Demonstrate an awareness of the importance of immunization in the fight against diseases
- › Explain the importance of not playing with discarded syringes and needles
- › Discuss the need to move briskly to appointed “safe areas”
- › State the consequences of playing with potentially dangerous objects such as matches, electrical outlets, knives and plastic bags
- › Demonstrate an understanding of the danger of playing in water (without supervision)

# 5-YEAR-OLDS

Term 3

THEME: JAMAICA LAND WE LOVE

SUB THEME: The Beauty of Our Land

Suggested Duration:  
2 Weeks

CONCEPTS AND CONTENT	SUGGESTED LEARNING ACTIVITIES	VOCABULARY
<ul style="list-style-type: none"> <li>› We live in Jamaica</li> <li>› Jamaica is a beautiful country; the <i>weather</i> is hot because of its location; the sun shines all year round</li> <li>› Jamaica is an <i>island</i>; it is surrounded by a huge body of water; this body of water is called the <i>Caribbean Sea</i></li> <li>› Jamaica has many <i>parishes</i>; people live in all the <i>parishes</i>; some <i>parishes</i> are bigger than others (size and number of people)</li> <li>› Every <i>parish</i> has a main town; a main town has many important buildings; some of these are <i>post office, church, market, supermarket, school, bank</i> and <i>courthouse</i></li> <li>› Jamaica has two cities – <i>Kingston</i> and <i>Montego Bay</i>; a <i>city</i> is a very large town</li> <li>› <i>Kingston</i> is the capital or most important town in Jamaica; it is also the largest</li> </ul>	<p><i>Children will engage in a wide range of activities in which they can</i></p> <ul style="list-style-type: none"> <li>› listen to songs about Jamaica, sing along and do dance movements to the different musical rhythms of Jamaican songs, e.g. “Oh Island in the Sun”, “Jamaica Land of Beauty”; “This is the Land of my Birth”</li> <li>› discuss the Jamaican flag and what these three colours represent</li> <li>› say what is the National Bird, Dish, Tree, etc.</li> <li>› locate Jamaica on the world map; tell why Jamaica is an island</li> <li>› make a 3-D model of Jamaica using cardboard cut-out shapes of Jamaica and playdough or clay; paint in appropriate colours; place model island in a blue basin with small amount of water to create island effect</li> <li>› identify and discuss some of the features of their country, e.g. mountains, rivers and beaches</li> <li>› tell colours used to represent each feature; draw and colour own representations of different features</li> <li>› use Standard Jamaican English (SJE) in talking about Jamaica, its physical features, its parishes and the two cities</li> <li>› observe and examine the map of Jamaica; identify parishes and their borders and the Caribbean Sea; identify, name and write the parish in which they live and its capital</li> <li>› do a community walk and record what they see; work on a group project to create a simple diorama of their own main town; label buildings; combine different paper shapes (e.g. ● ▲ ■ ♥ ◆) to make buildings</li> </ul>	<p><i>(Not to be used as a list for spelling)</i></p> <p>weather island Caribbean Sea parish post office church market supermarket school bank courthouse Kingston Montego Bay city</p> <p><u>SIGHT WORDS</u></p> <p>(name of students’ town or district) may at live where here one two three four five</p>

<p><b><i>Preparing for Learning</i></b></p> <ul style="list-style-type: none"> <li>› Prepare the Shop Corner with items for hurricane preparation</li> <li>› Make model boats from trashables</li> <li>› Prepare containers for gardening activities</li> <li>› Make a magnetic fishing game</li> <li>› Add new words to Word Wall</li> <li>› Make sentence strips to facilitate reading</li> <li>› Make list of children’s names and numbers and place list by toy telephone/ real telephone</li> </ul> <p><b><i>Interacting with and Supporting Children</i></b></p> <ul style="list-style-type: none"> <li>› Give children the opportunities to practise using puzzles, jig-saws, magnetic fishing games</li> <li>› Teach children their personal information for emergency situations</li> <li>› Encourage children to increase their interest in books</li> </ul>	<p><i>Observe and note each child’s performance and progress when appropriate. Record anecdotal comments and remarks regularly.</i></p> <p>Were children able to</p> <ul style="list-style-type: none"> <li>- follow instructions for planting peas, corn, other vegetables or trees?</li> <li>- measure the height of the plants and record on a bar chart?</li> <li>- calculate simple addition and subtraction problems?</li> <li>- make a shopping list of essential items and food needed to prepare for a hurricane?</li> </ul> <p style="text-align: center;"><b>INVOLVING PARENTS</b></p> <p>Ask parents to</p> <ul style="list-style-type: none"> <li>- talk about hurricane preparation</li> <li>- teach children how to protect themselves in their homes during a hurricane</li> <li>- share their experiences of hurricanes with their children</li> <li>- teach children personal information (names, parents’ full names, address, telephone number, name of school, name of community)</li> <li>- read to their children daily</li> </ul>

## A. Literacy Skills for Early Childhood Development

The early childhood period is characterized by tremendous growth. Language development occurs at a pace which is not replicated at any other time in the lifespan. The skills learnt at this stage will form the foundation for literacy development, a critical skill needed for survival and the efficient functioning as an adult. Early childhood practitioners have the enormous task of ensuring the development and nurture of these skills.

The Language Arts component of the Early Childhood Curriculum was developed so as to dovetail with the Language Policy of the Ministry of Education (MOE) as well as with current trends in Early Childhood Development and the teaching of Language Arts.

Language is the engine which drives all literacy endeavours. Jamaica has a dual language system where the first or home language of most children is the Jamaican Creole and not the Standard Jamaican English (SJE), which is the language of academia, aristocracy and international communication. The Ministry of Education in acknowledging this situation has outlined the following position in the Jamaica Language education Policy:

“Maintain SJE as the official language and promote basic communication through the oral use of the home language in the early years (e.g. K-3) while facilitating the development of literacy in English.” (p.24)

Elements of this policy decision in real working terms include the acknowledgement that children will need to be supported in their efforts to gain and be fluent in Standard Jamaican English. The MOE identified as necessary the following provisions:

- increased exposure to English, and particularly to idiomatic English, through different types of immersion;
- guidance by linguistically aware teachers who can appreciate the importance of Creole;
- opportunities to utilize a variety of indigenous forms – songs, poems, stories;
- exposure to a significant amount of material with culturally relevant content and illustrations;
- opportunities to hear and speak the target language in a variety of situations;
- curriculum provisions sensitive to differences in maturity levels and interests of girls and boys.

These are important considerations which Early Childhood practitioners must bear in mind as they deliver the highest quality of education to their children.

Language Arts expresses itself in literature and linguistics. Language Arts can be defined as the creative use of the knowledge of the language systems for social interaction. The components of Language Arts are listening, speaking, reading, writing, thinking and some persons add visualizing and viewing. The Early Childhood Curriculum, Birth through Five years, covers all these areas. It will be noted, however, that not all skills are addressed at every stage, neither is there equal attention paid to each component over the five years. This is because of the developmental nature of language and the children’s development. It would be unrealistic, for example, to expect a three-month-old child to have the cognitive and physical skills to listen to a story and then draw a picture representing the portion they enjoyed the most. This is however, a fair expectation of a five-year-old.

Below is a guide to the Language Arts skills covered in the curriculum.

Language Art Component	Skills addressed	Birth – Two Years	Three Years	Four Years	Five Years
<b>Listening</b>	Responding to sound as a stimuli	*	*		
	Responding to speech sounds	*			
	Differentiating between high and low sound	*	*		
	Responding to melody and rhythm	*	*	*	*
	Identifying similar and different sounds		*	*	*
	Isolating sounds			*	*
	Blending sounds				*
	Manipulating sounds				*
	Vocabulary development	*	*	*	*
	<b>Speaking</b>	Using voice to express emotions	*		
		*			
Promotion of speech sounds e.g. cooing, babbling		*			
		*			
Imitating speech sound		*	*	*	*
Replication of words and sounds		*			

Language Art Component	Skills addressed	Birth – Two Years	Three Years	Four Years	Five Years
	Naming objects	*	*	*	*
	Using one-word sentences	*			
	Using simple two /three-word sentences	*	*		
	Using sentences with more advanced structures		*	*	*
	Using courtesy words	*	*	*	*
	Speaking with sensitivity to and audience.		*	*	*
	Developing vocabulary	*	*	*	*
<b>Viewing</b>	Focusing on a stimulus	*	*	*	*
	Responding to facial expressions	*			
	Holding book upright	*			
	Turning pages left to right	*	*		
	Identifying familiar environmental print (signs, logos, labels, e.g. KFC or STOP)		*	*	*
	Identifying symbols(shapes, letters and numerals) irrespective of font type or size		*	*	*
	Identifying words irrespective of font			*	*
	Interpreting pictures		*	*	*
	Interpreting charts, tables and other diagrams		*	*	*
	Identifying a piece of music	*	*	*	*
	Gathering and summarizing information from electronic and printed sources				
	Recalling facts and details	*	*	*	*
	Main ideas	*	*	*	*
	Understanding sequence	*	*	*	*
	Making predictions		*	*	*
	Finding word meaning in context	*	*	*	*
	Drawing conclusion and making inference		*	*	*
<b>Reading</b>	Vocabulary	*	*	*	*
	Comprehension	*	*	*	*
	Letter knowledge		*	*	*

Language Art Component	Skills addressed	Birth – Two Years	Three Years	Four Years	Five Years
	Phonics		*	*	*
	Sight words				*
<b>Writing</b>	Scribbling	*			
	Letter formation (upper and lower case)		*	*	*
	Writing words			*	*
	Writing sentences			*	*
	Using correct spacing and letter formation				*
	Using punctuation (full stop)				*
<b>Visualizing/Representing</b>	Creating songs and sounds	*	*	*	*
	Creating/ Mimicking movements	*	*	*	*
	Creating drawings and pictures	*	*	*	*
	Creating models	*	*	*	*
	Creating dramatic pieces,			*	*
	Creating charts, graphs and tables		*	*	*
	Creating posters, murals, photographs, dioramas, puppets. Creating electronic text/graphics		*	*	*

## B. Numeracy Skills for Early Childhood Development

Why teach mathematics to the young child? There are several reasons:

- 1) Mathematics is a life skill;
- 2) We need to lay the foundation for future learning of mathematics and logical skills;
- 3) Everything around us can be better understood with mathematics;
- 4) When children are young it is a good time for them to become interested in counting, sorting, building shapes, measuring and estimating;
- 5) Children should be given the opportunity to experience mathematics as they play and explore their world;
- 6) Linking mathematics with the other disciplines such as music, science, nature and art can better help the child learn the subject.

With the Ministry of Education's emphasis that "*every child can learn; every child must learn*", practitioners and parents must seek to engage young minds in a variety of interesting ways to learn mathematics.

The teaching and learning of mathematics can be very rewarding when the best methods are used to deliver the content. This curriculum has built its foundation on how children learn best. The focus is on meaningful and active learning.

The five mathematics process strands are emphasized throughout this curriculum.

They are:

- 1) Communication – Children must be given the opportunity to talk about what they are learning. This means that they can express themselves through words, drawings and pictures. When children are given the opportunity to talk, it helps them to think about what they are doing and make their own thoughts clearer. It also improves their vocabulary.
- 2) Connection – Mathematics must be connected to real world situations, since connections make mathematics easier to understand. The use of stories, poems, finger plays, jingles and nursery rhymes is employed to help make mathematics meaningful to the child. Mathematics relates to many subjects such as science, art and music.
- 3) Problem solving – Mathematics is all about problem solving. Young children are eager to solve problems if given the time and the opportunity to do so. They also learn when they are given concrete objects to use, as well as when they are encouraged to tell how they worked out the answer to a given problem. Through problem solving children learn many different ways to find solutions to given scenarios. Problem solving involves the ability to explore, think and reason and helps to build language and social skills.

- 4) Representation – The use of manipulatives, especially counters, and drawings must be a part of the mathematics lesson. These are children at the concrete operation level, while some may be at the semi-concrete level. Care must be exercised when using semi-concrete ideas because not all children are able to operate at this level. Encourage children to use drawings to express their understanding of a given problem.
- 5) Reasoning and proof – Children love to express themselves. They must be encouraged to talk about their thinking. They should be given the time and opportunity to say how they arrived at their answer. To promote reasoning, ask the child relevant questions and give them the opportunity to answer.

Remember children learn best by doing. The use of play is crucial in the mathematics class. Practitioners must encourage children to use the various learning corners in the classrooms as they explore mathematical concepts.

The mathematical concepts used in this curriculum are based on 4 of the 5 mathematics content strands.

These strands are:

## 1. **Number**

### a. Pre Number

- i) sorting and classifying
  - same and different
  - sorting in different ways - size, colour and shape
- ii) position and location
  - inside and outside
  - over, under and on
  - top, middle and bottom
  - right and left

### b. Numbers

- i) rote counting
- ii) numbers 1 to 100

- iii) fractions (whole, halves)
- iv) joining sets
- v) counting, reading and writing numbers
- vi) comparing numbers
  - more than
  - less than
  - one more than
  - one less than

## 2. **Geometry**

Geometry and spatial sense

a) solids (3 dimensional)

b) plane shapes (2 dimensional)

\* shape, size, position, direction and movement

## 3. **Measurement**

a) time

- calendar time - (day, week, month, yesterday, today, tomorrow)

- clock time

b) length, height, weight and capacity

## 4. **Statistics**

a) graphing

b) real graph

c) picture graph

d) bar graphs

e) line plots
