

# Consortium for Social Development and Research Social Work Training and Research Centre

## CASE MANAGEMENT

This training is intended to enhance social workers' and allied professionals' case management skills. Through the overview of case management models and practical assessments, participants will be positioned to develop and monitor evidence-based intervention strategies to improve the lives of their clients. Participants will be introduced to best practices and practical tools to be utilised daily in their trauma-informed practice in motivating clients to become independent.

At the end of the course students should be able to:

- Understand the case management process
- Engender ethical principles in the development and execution of plans of care
- Illustrate the process of monitoring, reviewing and evaluating care plans.
- Document an effective care plan review.
- Apply steps to close cases upon achieving the agreed goals

Duration: 10 weeks (3 hours per week)

Modality: Online

Cost: JA\$45,000.00/US\$300.00

Certificate type: Achievement and 3 CEUs

Continuing Education Units (CEUs) are awarded
